Transcriber's Introduction

This transcription of the Healaugh & Muker Manorial Court Book E 1744 - 1753 is mostly a facsimile transcription; that is that apart from two changes I have tried to make it an exact typescript copy of the hand written original Court Book. The two changes I have made are firstly Messuage has been spelt with a double s, and secondly each lower case ff has been written as a capital F. Apart from these I have made no corrections to the spelling or any obvious mistakes made by the original scribe. However I too am fallible and I am sure that I also have made mistakes. The original writing is often difficult to read, particularly where there have been corrections it is almost illegible. Because of these difficulties and my fallibility, all serious researchers should go back to the microfilm in the North Yorkshire Record Office at Northallerton and confirm their results for themselves.

This transcription includes the index so to keep this useful I have not changed the page numbers throughout the book.

In a few cases the Rents in the left hand margins are not visible on the microfilm because of the way the book has been bound. In these cases I have put the rents as given in the text in the margin. Elsewhere the sums in the margins and in the text are almost invariably the same.

I wish to thank the staff of the North Yorkshire Record Office for their help, advice and encouragement and for lending me a copy of the microfilm. I am also extremely grateful to the staff of the Local Studies Section of Kendal Library for help in transferring the microfilm to a memory stick so I could print out the pages at home. If future researchers find this transcription useful they should know that it could not have been made without the cooperation of both these sets of very helpful people.
