Site code: SBDR 14

Use this page at the end of each day to record a short summary of everyone on your team's thoughts about the day and the dig.

Summary of day 1 Date: 19 Jul 2014

Very wet. Gave up half way through context 6. Main finds 2 pieces of pot in context 6. So wet pens would not work so fupers used to show context no. on photographs.

Summary of day 2 Date: 20 Jul 2014

Sunny + hot. Discovered what we thought was a stone was v. large piece of stoneware making one found Saturday. Long discussion on whether stones in [8] were man made or not. Decided natural. Finished 2pm.

Add written description of test-pit location	<input checked="" type="checkbox"/>

1. Make a measured, labelled plan of the unexcavated surface the test pit, showing where it is in relation to features such as houses, boundaries, roads, walls etc which are marked on your Ordnance Survey map. Include lines showing the exact distances from your test pit to permanently identifiable points nearby such as buildings or field corners. Show your test pit as a square with the corners numbered 1-4, to correlate with the numbers on each context plan in the **Context Record Sheets** in this **Record Booklet**.

2. Draw an arrow here pointing in the direction of North on your map:

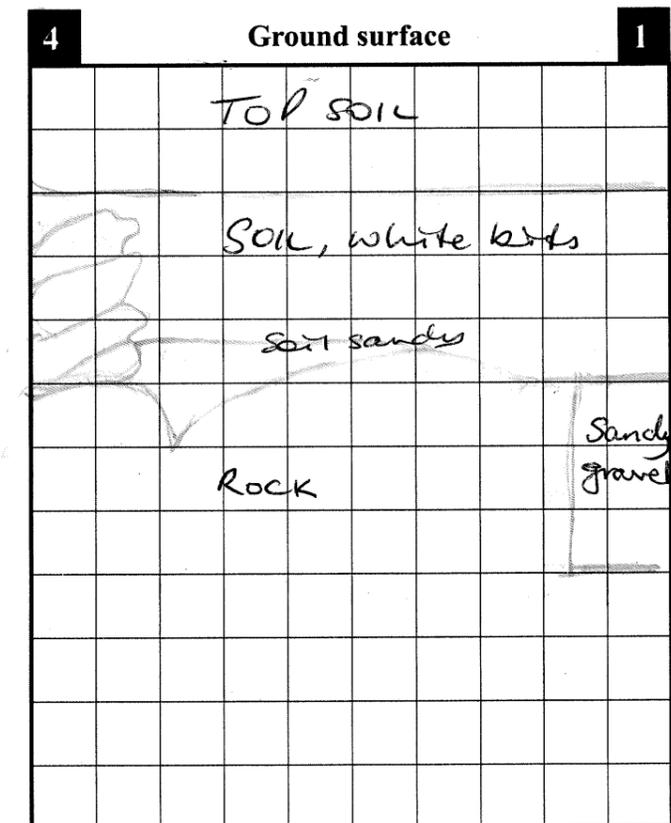

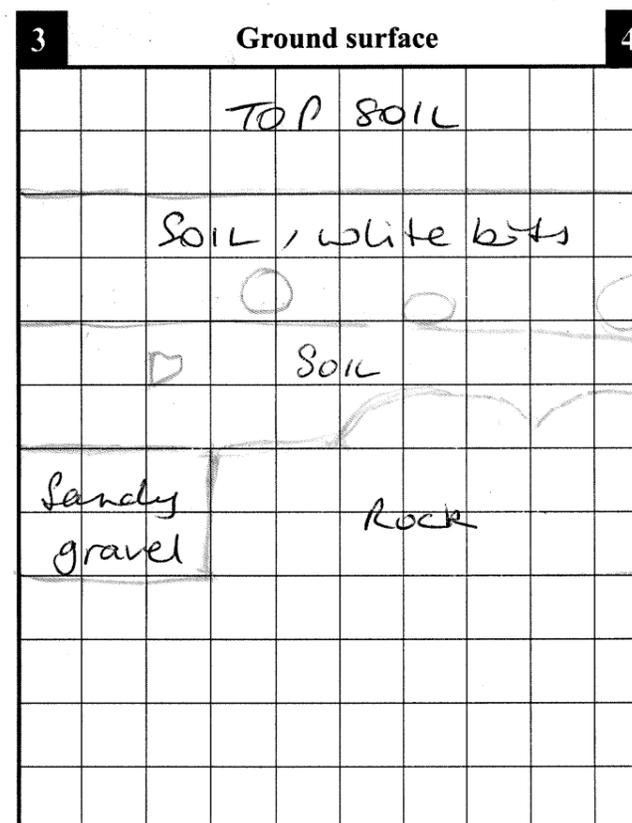

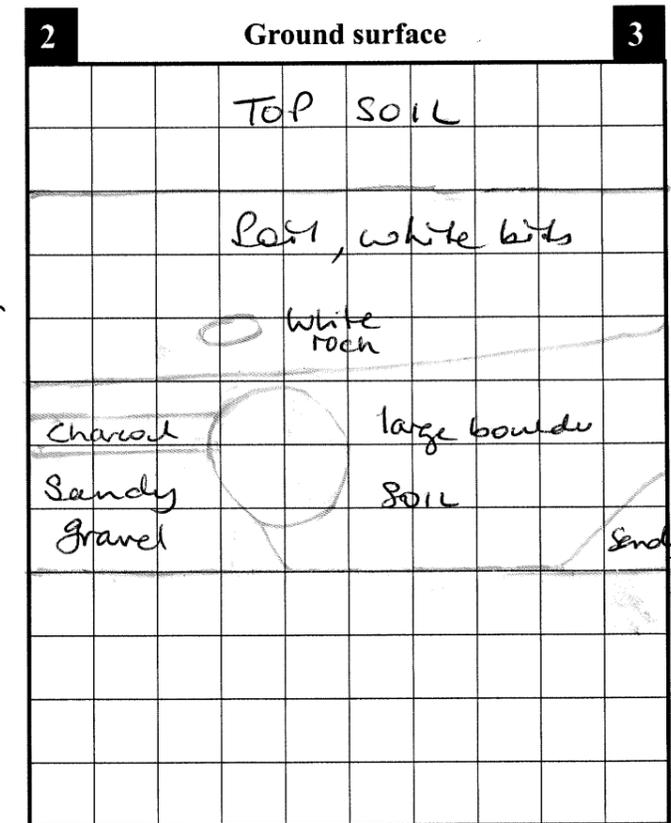

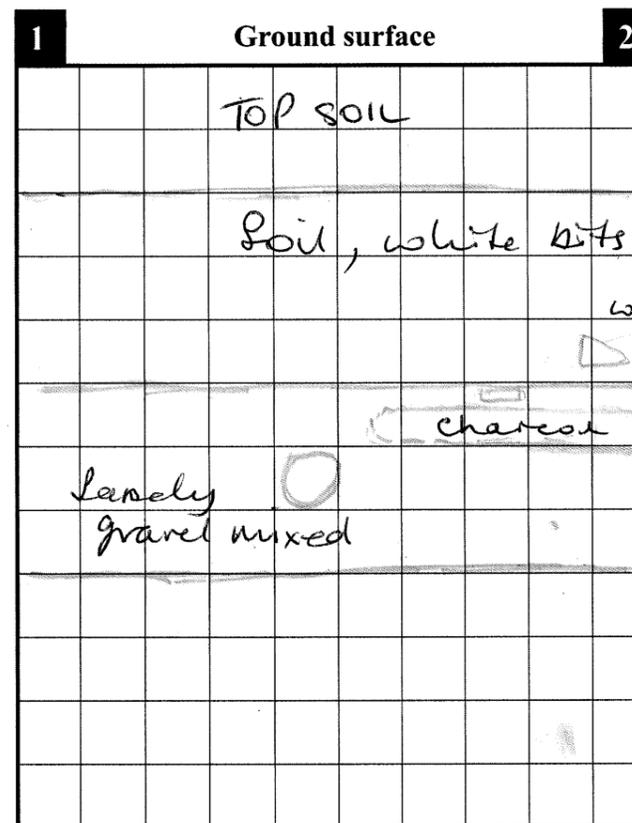

3. Describe where your test pit is, adding any notes which help explain this to someone who doesn't know your site:
